

Enjoy a **FREE Month of Gigabit Internet** with **WiFi** included

- Enjoy a free month of Gigabit Internet when you move into E 4th or Rosetta Center. That's up to **1,000 Megabits Download** and **1,000 Megabits Upload**. **Please note: Gigabit speeds cannot be obtained over WiFi.** You can get speeds up to 200M over WiFi (plenty of speed for streaming) but for speeds up to 1,000Megs, you will need to hard wire your devices.
- If you love the service (and we know you will 😊), we offer easy credit card billing which will start after your first free month.
- **Want Live TV service?** With Cleveland Broadband's fast and reliable Internet service, you have more than enough bandwidth to stream VOD (video on demand) services such as Netflix and Hulu across multiple devices, as well as live TV for as little as \$20 thanks to services like DirectvNow, YouTubeTV, SlingTV and Playstation Vue.
- For questions please reach out to Bryan at 440-525-1018 or bryan@clevelandbroadband.com
